

1/2

Panel of 5 Usual Agenda

- P5 held a # of preparatory meetings (6) beginning at the end of May 2017
- These pre-int meetings were foundational in nature and proved to be very effective in developing and ensuring a common understanding among us on topics such as:
 - mandate - reviewed the protocol in detail
 - role of the Panel and key partners - in S+I Community, EC, CCE
 - baseline security threat briefings - range of potential interference activities, sources
 - threshold discussion / ~~exercise~~ exercises which continued throughout the int period
 - communications should the threshold be reached
 - how we would to work during the int period - work plan.
- After the int was dropped, we met weekly until the election (Oct 21)
 - Panel was to be on-call throughout the int period if req'd. (Sept 11)

2/2

Doing the Work Report

- Usual Agenda could include:

- ~~regular~~ briefings^S + discussions from the security agencies - led off by the Dir + Chief regarding potential threats to the integrity of the election

→ would complement the daily, amalgamated multi-source intel and info sit reps from SITE + intel products

- they would leave so we could deliberate amongst our selves on any issues they raised or from the ^{SITE} SIT reps

- threshold was on-going focus for our deliberations
- scenario / table-top exercises re: possible types, sources of fi + implications

- follow-up, we wanted ^{a more info} on particular ^{potential} issues

deliberate, serious contribution
