Classification: TOP SECRET//CANADIAN EYES ONLY

Not exactly what I expected. [redacted] only responded to Dawn's request, basically saying it can't be shared with RCMP and to go through FPNS (which may well be the appropriate path). [redacted] just acknowledged that this had been dealt with at the DG level, and that prior to DMOC, CSIS Dir and DDO were updated on the 'particulars of the issue'.

Well, it hasn't been dealt with at Artur's level – only nonchalantly dismissed by Cherie.

Feedback from Dan and his discussion with Vigneault: David understands we are not happy; he apparently didn't really like the report either (which I can't quite fathom). But he did say we should discuss this at SITE.

...for another day.
