Hi Weldon – Cut from 11 pages track changes and 2) clean.	to 7 (yay), and refreshed the TPs. Attached are two versions:
Spoke to O/USS. They are good	d to receive it tomorrow morning.

I've added a few comments, pls look closely as they will require more work and I'll review again. It is too long on stuff she knows. The TPs need reworking. In addition to comments attached, wondering whether we want Taiwan responsive or proactive. Regardless, please add a talking point:

- Cda increasingly concerned with PLA activities that raise risks of accidents, or recklessly test missiles over civilian populations.
- Any unilateral effort to change the status quo would have a devastating impact on the global economy and regional security - by definition matters that are not simply Chinese "internal affairs". And such actions would absolutely elicit a strong international response.

Happy to brief up tomorrow on this, from our discussions last 2 days, incl German approach in BJ.

Some sugges	ted TPs below.
Also attached	is the latest version of the MINA-Wang Yi note, which will include minor tweaks
before it goes	to USS in his reading folder tonight. I just got off the phone with who is
making those	minor tweaks.

Hello again all,

Flagging that USS will say a few brief intro words to position the trip so grateful if the bullets could cover this, and then a few words (2 sentences max) of transition between each agenda item before passing the floor to issue leads. Given this, please keep the bullets short and sweet, as the expectation will be that issue leads will do most of the talking.
